

“This Hybrid-Electric Vehicle is  
my gift to the world.  
As its use  
becomes widespread,  
we would be allowing our planet  
to breathe more freely  
and provide  
our future offsprings with  
a healthier environment.”

## MEET THE INVENTOR

TRISTAN H. CALASANZ

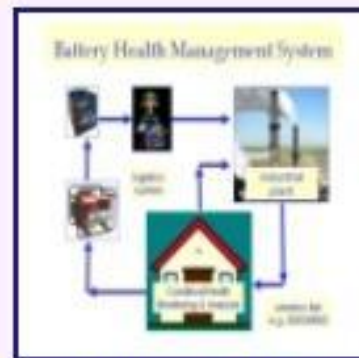

Hybrid  
VFI in  
Industry

# "Instrumentation with a Humanitarian Dimension"

**Priority No 1**  
**Braille Classroom**  
replicable anywhere

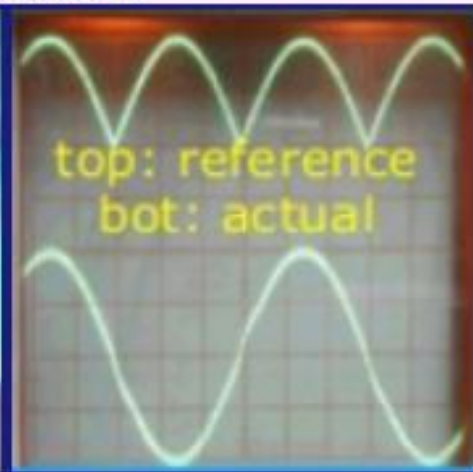

**Priority No 2**  
Remote Monitoring of  
**BATTERY HEALTH**

**Priority No 3**  
**CO-GENERATION**  
Generate 280 units of  
work from 100 units of  
energy input

## Ongoing - Hybrid-Electric Vehicle

The Hybrid-Electric Vehicle will see road tests to determine:  
"What is its fuel consumption WITH and WITHOUT the hybrid part of the system?"

Maraming salamat sa  
pagbabahagi ng dunong,  
pagbibigay inspirasyon at  
paghubog sa mga  
susunod na malikhaing  
inhinyero.
